Einladung

zu dem am Donnerstag, dem 07. November 2024, ab 15 Uhr
im Kurt-Alder-Hörsaal,
Greinstraße 4, 50939 Köln

stattfindenden öffentlichen

wissenschaftlichen Habilitationsvortrag

Institut für Zoologie

(Fach: Zoologie)

von

Ph.D. Maximilian Michel

über das Thema

Reproducibility in Science

The reproducibility crisis in many fields of science has made news. But what does it entail? Is it bad science as some might suggest? Should we give up on science and invest in other endeavours? Is it a process inherent in the scientific method? I will give a brief introduction into the problem and what is at stake before discussing possible causes and making a case for the confidence we can and should have in the scientific method.

G. Bareth
Dekan
